

Eighth Grade Sci-ber Text

Utah's Eighth Grade Integrated Science course focuses on the theme of "change". Sci-ber Text changes thanks to Eighth Grade Science Teachers. These pages are for you to have fun on-line as you explore science this year. Pages may be viewed at home or during your school science class. Sci-ber text includes reading, pictures, fun activities, interesting labs, and quicktime movies.

If your browser is not set up with the quicktime plug-in, please download and install it before you continue.

Tabs at the right link between chapters of Sci-ber text. The first page of each chapter shows the pages you will visit in that chapter. Buttons at the bottom of each page direct you forward or back. The 8th Grade Integrated Science logo returns you to this page.

Throughout sci-ber text, you will find the try-it icon.

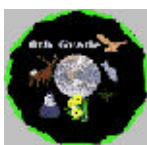

These are fun, safe tested activities when the directions are followed. Enjoy them! Along with activities, there are icons that are links to the [safety pages](#) to help keep you safe!

Watch for the schools2careers(*) logo. It designates jobs that relate to a subject.

A [site map](#) is available if you forget where you left off previously.

Now let's go have fun!
